

Dish Dish - Your Online Family Cookbook

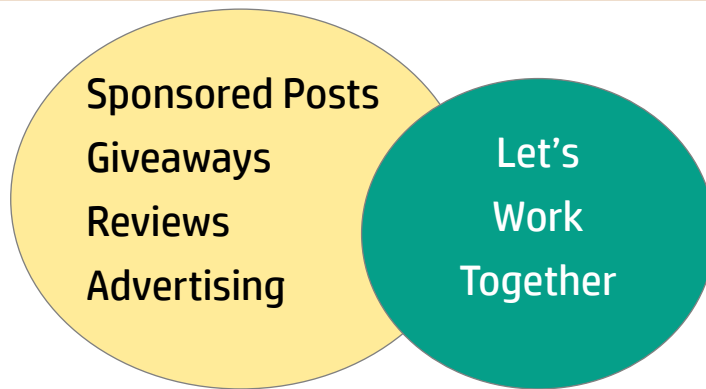

Dish Dish is a social recipe organization site primarily engaging women age 25 to 45 who enjoy cooking and socializing with friends and family around food and the kitchen - women who want to make their lives easier with technology while managing the household and preparing home-cooked family meals. We provide ways to simplify meal planning, recipe organization, and sharing recipes around the world while on the go — helping our members enjoy family, friendship, and food.
